SPA MENU

LEARNING TO LISTEN TO  
YOUR BIOLOGICAL RHYTHM  
IS THE FIRST STEP TO A  
UNIVERSAL  
HARMONY

We have a holistic vision of the body that supports the view of how important it is to invest in both our daily physical and mental health, in order to obtain the optimal health in any age, with an active, complete and satisfying social life.

We live in an environment that is continuously changing and may be hostile to our lives. The environmental pollution, consumption of processed and non-organic food, lack of physical activity, stress, and above all, the unhealthy habits and lifestyle, all combined, force the body and the mind to constantly battle to adapt to these environmental conditions. As a result, the body accumulates “toxins” with time, and gradually reduced functions and increased body damage settle in.

In our company, we recognise this all, and the bad impact that it imposes to life, particularly when one carries on living in the same way, doing very little to change.

We adopt a multidisciplinary therapeutic approach to our

method of work, known as the Chenot Method. We have designed personalized powerful and effective treatments, therapies and products with the intention to detoxify the body and the mind, improve the vitality, the spirit and the wellbeing whilst promoting the beauty and aesthetics in the years to live through a strong, healthy body and mind.

With over forty years of experience we have developed a unique Method of treatments.

We strongly believe that our fully integrated approach, our powerful treatments combined with our guests' positive attitude towards life and their will power to a healthier lifestyle, will ultimately support them to obtain the optimal health and beauty in any age.

The Thalaspia Chenot is a wellness center in which hotel guests can choose wellbeing and vitality programmes, beauty treatments, as well as fitness and wellness facilities to help them relax, restore and rejuvenate during their period of stay all according to the principles of Biontology.

Hydro Biontology Department

Aesthetic Department

A microscopic image of a hydrozoan colony, showing a network of translucent, branching structures. The structures are composed of various cell types, including large, rounded, blue-stained cells and smaller, more delicate, and sometimes ciliated structures. The overall appearance is that of a complex, interconnected biological network. A solid blue vertical bar is present on the right side of the image.

# HYDRO BIONTOLOGY DEPARTMENT

## HYDRO BIONTOLOGY DEPARTMENT

Stimulate your circulatory and lymphatic systems through the alternation of water pressure and temperature. Therapeutic value is enhanced with the help of essential oils, plant extracts and marine algae. This treatment is ideal for the blood vessels, the lymph and to tone and firm the body.

## HYDRO BIONTOLOGY DEPARTMENT

### **Hydro-Aromatherapy** *20 min / € 55*

This is a particular type of hydro massage in which a special mixture of essential oils is added to the water bath. The variations in the water temperature and pressure are critical and combined with the thermodynamic effect of plant extracts causes the dilation and constriction of the capillaries. This action stimulates the natural physiological functions to remove toxins and fat deposits from the skin tissue. It also combats the effects of skin ageing by favouring spontaneous cell regeneration, improves skin appearance and its overall peripheral blood and lymphatic circulation. The hydro-aromatherapy is a genuine rehabilitative treatment that tones and strengthens the skin, balances the body fluids and energy and relaxes both body and mind.

### **Phyto-Mud Therapy** *20 min / € 65*

This involves the application of a body wrap that consists of a mixture of white or green clay, enriched with microalgae and pure essential oils and it is the second step of the hydro-energetic treatment. The combined effect of essential oils and minerals further drain, detoxify and revitalise the body depending on the application time, and is helpful to eliminate physical/muscular and psychological /stress tension.
